

# Saturn Freight Systems

## Computation and Application of Fuel Surcharge

Saturn uses an index-base surcharge that is adjusted Monday of each week. The surcharge will be based on the National U.S. average for fuel as reported by the U.S Energy Information Administration (EIA) available through their website: [www.eia.doe.gov](http://www.eia.doe.gov). The Fuel Surcharge for each shipment will be determined by the percent level applicable on the date of the shipments listed below.

U.S. DEPARTMENT OF Energy Average Price Per Gallon		Fuel Surcharge
At Least	But Less than	
2.00	2.10	18.50%
2.10	2.20	19.00%
