

Aaxon Credit Card Kiosk

Add Value Kiosk

Offer customers the option to pay for services via value card with Aaxon's Credit kiosk. This kiosk is the secure way for your customers to seamlessly add funds or purchase a value card using credit card or Value Code.

The Aaxon Credit Kiosk Series utilizes leading technology including Aaxon's Ultra VXT Pro payment terminal, featuring a full color, multilingual touchscreen user interface. Contactless is built into the VXT Pro allowing for NFC acceptance, so no additional card reader component is required.

This Aaxon Credit not only meets the demand of convenience and flexible payment options from customers, it also meets the demands of Operators such as:

- Reduce or eliminate the cost of coin collection
- Payment Flexibility to customers without increasing costs
- VXT Pro meets IP56 Waterproof & Dust and IK09 Vandal Resistance Ruggedized standards
- Network ready - Ethernet & 4G modem (optional)
- Washboard compatibility

-  **Acceptance**
-  **Choice**
-  **Security**
