

AaxonConnect

Service Alert

- Washers and dryers featuring AaxonConnect - alerts our service team with real-time information on everything we need to know regarding your community laundry room operations.
- Machines requiring service automatically notify our service team the cause of the malfunction.
- Reduces downtime by automating the request for service process and ensures that your community laundry facility is operating at peak efficiency.

Remote Start Capabilities

On the rare occasion when a resident is charged for a machine that doesn't start, AaxonConnect provides our service team with the ability to remotely start a machine free of charge providing a real-time service solution for your residents.
