

# What *You* Should Know About

## The Family Health Centers of Georgia, Inc. (FHCGA) FREE COVID-19 Drive-Thru & Walk-Up Testing

### Should I be tested?

Everyone who thinks they need a test are welcome to get tested. Especially, if you are experiencing fever, shortness of breathe, sore throat, body aches, loss of taste, diarrhea, or came in contact with a positive COVID-19 person.

The earlier you know, the quicker you can get care to help your family and community stay safe.

**If you are experiencing a medical emergency, please call 911.**

### How do I get tested?

Call our **Coronavirus Info Line at 1-800-935-6721** or **visit [covid.fhcgga.org](https://covid.fhcgga.org)** for a testing date and location near you.

**Confirmed COVID-19 testing pre-registration is encouraged; but not required.**

### Which test will I receive?

The standard COVID-19 lab testing - nasal (nose) swab specimen. Testing is safe and easy.

### What and where is your drive-thru or walk-up testing site?

**For drive-thru:** Testing minimizes your contact. Your windows remain up until you reach the testing personnel.

Once there, you place your window in the halfway down position for our trained medical staff to perform the test. Please wear a mask or face covering, if available.

**For walk-up:** You will identify yourself at check-in & a medical provider will perform the test.

**Picture I.D. and a face covering are required.**

### How do I get my test results?

The test you will receive is a lab test with 99% accuracy. It may take 10 business days or more for you to receive your results from our lab partners. Your test results will be provided via text, voicemail, or an email to sign in using our patient portal, or a phone call to the information you provide during registration. If you need more assistance, please call our Coronavirus Testing Results Info Line at 404-369-0961.

### How much does FHCGA's COVID-19 test cost?

**It is FREE.** If you have health insurance, the lab might bill your insurance to cover their lab fees, as per federal guidelines. However, you will not be charged a co-pay or have to meet a required deductible.
