

We Are Still Here for You

To our valued patients:

For 45 years, The Family Health Centers of Georgia, Inc. has served on the front line when it comes to caring for our community. We are still here for you. Our dedicated healthcare professionals continue to put the needs of our patients and community first.

We are following CDC Coronavirus recommendations for protecting our patients, visitors and ourselves. We increased our cleaning measures in all locations. We screen all staff and visitors entering our buildings daily to assist with early detection of Coronavirus symptoms and direct our patients and staff to appropriate care, if needed.

We are staying abreast of CDC recommendations and taking action accordingly.

We know how important it is that our patients, particularly our seniors, children and pregnant women, receive care during these critical times.

Our doors remain open to care for those who need primary care medical services.

The Family Health Center at West End

868 York Avenue, SW | Atlanta, GA 30310 | 404.752.1400 | Monday – Friday 8:00 a.m. – 5:00 p.m.

The Family Health Center at Cobb
