**LATISSE**

For the treatment of Hypotrichosis of the eyelashes..ie not enough or inadequate eyelashes

LATISSE makes eyelashes longer, thicker and darker

LATISSE is intended for use on the skin of the upper eyelid margins at base off the eyelashes..DO NOT APPLY to lower eyelid!

You affirm that you are not using Lumigan or other products in same class for elevated intraocular pressure (IOP) nor do you have a history of abnormal IOP.

LATISSE use may causes darkening of the eyelid skin, and it may cause increase pigmentation of the colored part of the eye which is likely to be permanent.

You agree you have been advised of all possible risks and benefits..you will follow the directions reviewed as well as the complete package insert. Growth is gradual but there should be growth noted by the 8 week mark and most noticeably by 16-20 weeks..
