

HEMATITE BRACELET

jacobandco.com

Hematite is a magnetic stone celebrated for its immense grounding and healing properties. When worn in jewelry, hematite is believed to cast a reflective aura around the wearer, protecting them from negative energies, enhancing mental clarity, bolstering self-confidence and purifying the mind, body and soul. Set in stainless steel or 18K rose gold with the option of cubic zirconia accents, Jacob & Co.'s Hematite collection harnesses the powers of the rich and deeply colored stone in elegant bracelets and cuff bangles, ideal for daily wear. The classic designs can be sized to include 17 to 20 bars of Hematite per piece, or custom fit to the wrist of any man or woman.
