

Serving Our Neighbors in Need

During this extraordinary time, all of us are rearranging plans and changing how we do things. Unfortunately, in the world of poverty, the needs are getting greater and the timeframe is urgent. We have more children lacking food usually obtained at schools, more parents losing their jobs, more eviction notices causing homelessness and more hopelessness over the present and future.

In addition to needing more financial support than ever, MUST Ministries is making decisions that abide by health recommendations. We asked our precious volunteers to shelter in place to stay safe, but we continue to feed thousands of people, shelter the homeless and offer case management to those in our housing program. Frankly, we were counting on the upcoming 2020 Giving Gala to help us meet many of those needs. To abide by important health recommendations and keep everyone safe, we have had to postpone our exciting event.

Like everyone, we miss seeing our friends and it breaks our hearts to cancel the Giving Gala when we enjoy your fellowship and sharing a wonderful evening. Know that we're working on other ideas for an event for later this year and hope that you will stay by our side as we move forward. We look forward to being with you then. Please stay tuned for more information.

In the meantime, may God bless our organization and protect it. And may He bring help and hope to all those we serve.
