

THE "SUPERIOR" ACTIVITY BOOK

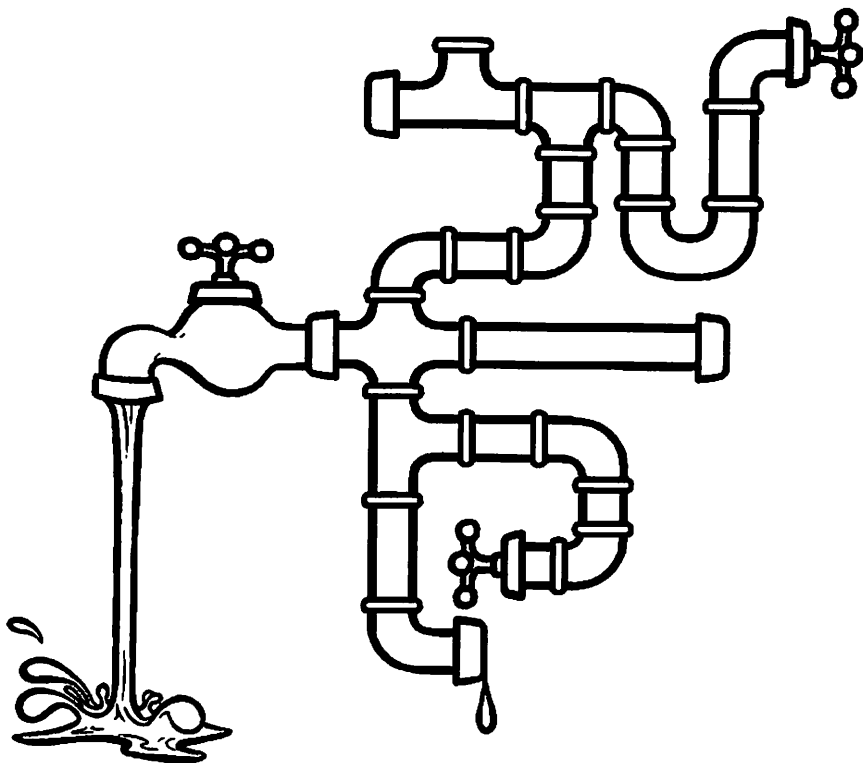

**Hi my name is Super Saver Simon.
I want to teach you about the world of
plumbing and water conservation.**

**Follow me through this activity book
and we will have lots of fun!**

This book belongs to

What is plumbing?

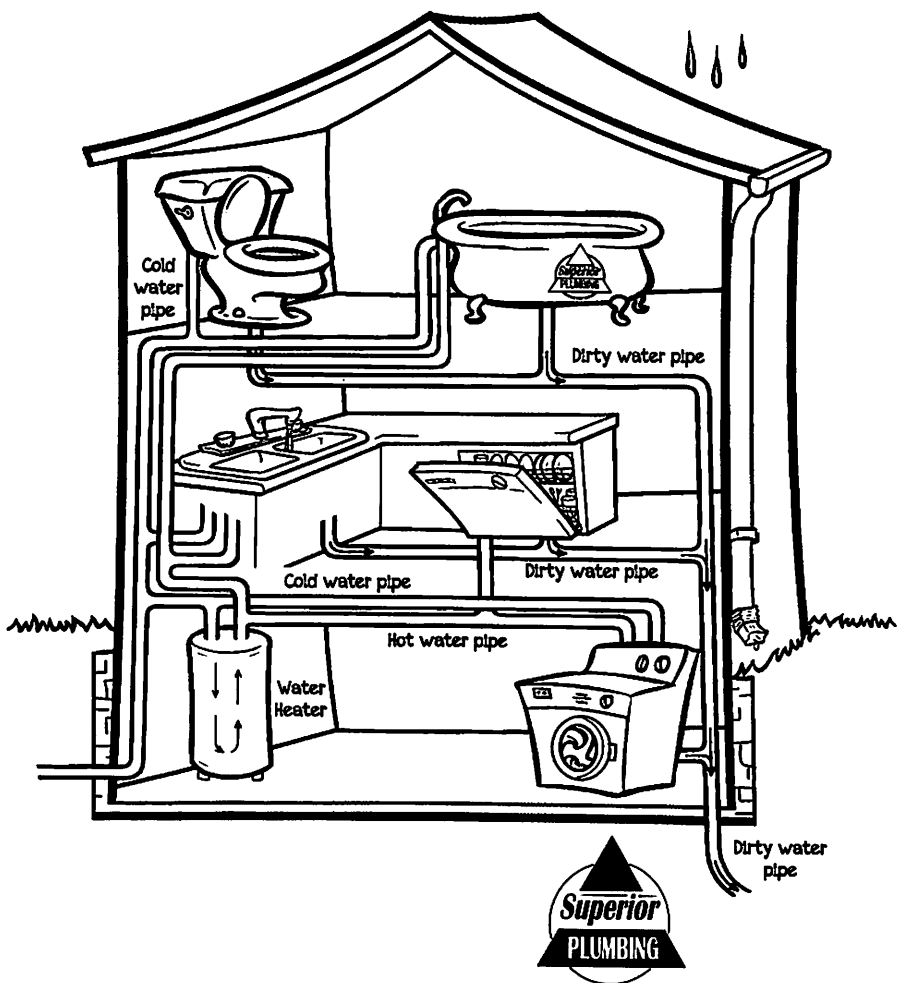

Plumbing is the system used to supply clean water and carry away waste water. As a plumber, it is my job to repair this system so that water is used in a healthy, safe, and clean way. In your home, I repair things that use water like leaky faucets, clogged drains, and broken pipes so that your water is clean and not wasted.

Did you know that one person uses on average 50 gallons of water per day? One drip every second adds up to five gallons per day!

The flow of water through your house

Clean water flows through the fixtures
and dirty waste water drains out.

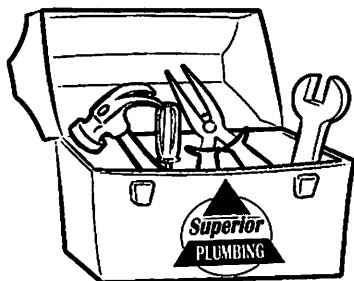

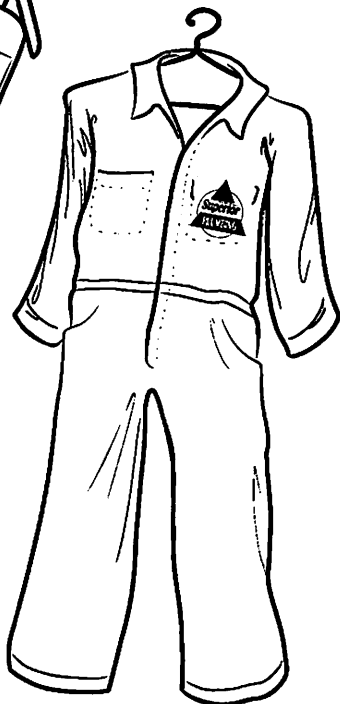

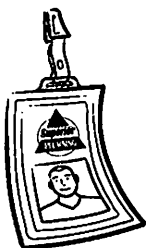

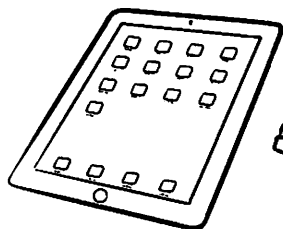

Help Super Saver Simon unscramble each line to reveal words he uses everyday.

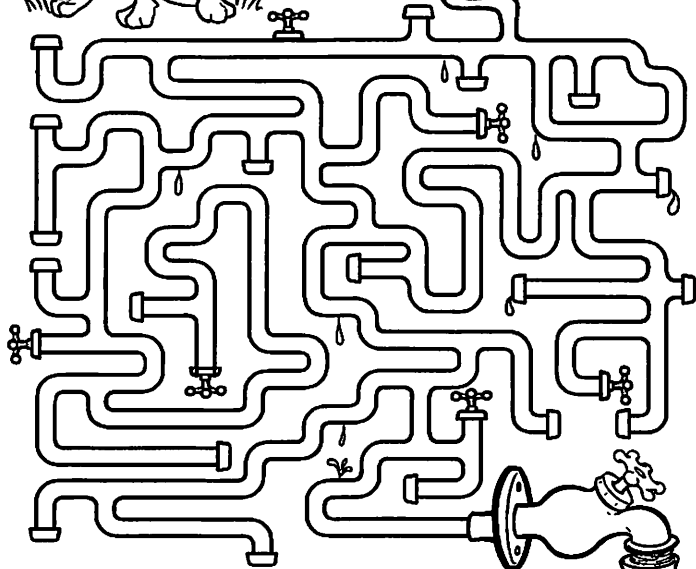

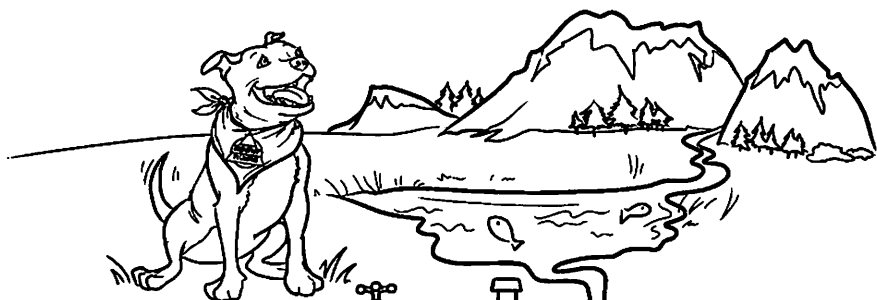

A H I
E R H C W N
R T W E A
R H W E S O
C U T A F E
A R N I D
N C L A E

Two gallons of water is used when one person brushes their teeth.

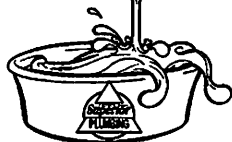

Items Super Simon uses for work

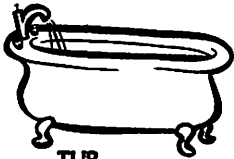

When you give your pet fresh water,
don't throw the old water down the drain.
Use it to water your trees or shrubs.

Help Petey find his
water dish...
