

High School TEKS Skills at School Days at the Texas Renaissance Festival

Health

Health I – Grades 9-10

1.c. – Explain the relationship between nutrition, quality of life, and disease. → Discuss with students the Plague and how it was able to spread so quickly. What could have been done to prevent the infection spreading?

Advanced Health – Grades 11-12

8. – Influencing factors. The student researches and evaluates a variety of environmental factors that impact personal and community health. → Compare and contrast the 1600's with today's society. What improvements have been made to communities to improve health conditions and life expectancy?

14. – Personal/interpersonal skills. The student evaluates communication skills that show consideration and respect for self, family, friends, and others. → Show respect on trip through what is said and done.
