

Our center will open on July 15th with services for the public aligned with safety and health guidelines of Cobb County and public health authorities for preventing the spread of coronavirus.

The reopening is the second phase of the plan for opening services to customers. In an earlier phase, efforts were made to prepare the center for the safety and wellbeing of staff and customers alike. We ask that you be patient with us during these extraordinary times as we do our best to provide you with the highest quality of services.

Under this reopening phase, we will limit the number of customers in the building to expand our ability to practice social distancing. Customers are welcome to call in and schedule an appointment to help expedite access to the service center (770-528-4300) or stop by as walk-in. A one-hour limit will be imposed for the use of computers if a line begins to form for access to services.

What you can expect from us:

- Staff temperature screened daily
- Staff will meter customers through doors to reduce foot traffic
- Signage enforcing hand washing/social distancing posted through building
- All surfaces will be cleaned regularly throughout the day
- Redesign of space configuration to ensure social distancing
- Mask requirement for staff

What we ask of you:

- Please stay home if you are ill
- Follow the directions posted throughout the center
- Give other individuals 6 ft of space while in the center
- Wear a mask and wash your hands regularly. For those without one, we will provide a mask for you.

We will also continue to provide **VIRTUAL SERVICES**.

Have a quick question? Chat with us through our **Live Chat** on our website. Need your resume reviewed? Email to us and we can do a phone or video chat to review it.

Check back here and on our social media channels for updates and support.

We look forward to continuing to serve you and helping you reach your career goals!
